This map was prepared by the Belknap Range Conservation Coalition (BRCC) and is intended to be used for planning purposes only.

Most data presented on this map represent stock data sets obtained from NH GRANIT. Digital data in NH GRANIT represent the efforts of the contributing agencies to record information from the cited source materials. Complex Systems Research Center, under contract to the NH Office of Energy and Planning, and in consultation with cooperating agencies, maintains a continuing program to identify and correct errors in these data. OEP, CSRC, and the cooperating agencies make no claim as to the validity or reliability or to any implied uses of these data.

Conservation lands include stock GRANIT data with some additions and corrections made by the BRCC based on the knowledge of its members.

The hiking trails shown on this map are the major trails originally mapped by Dave Roberts and more recently updated by Weldon Bosworth. All trail locations on this map are approximate. Many of these trails cross private property. Please respect and care for the rights of private property owners.

Map prepared April 2, 2017 by Nanci Mitchell for the BRCC
Please send any corrections or suggested changes to this map to Russ Wilder at info@belknaprange.org.
